modulo adicional  
para Blackboard Learn

# Mobile Learn

Blackboard Mobile Web Service  
Building Block™

- ✓ Bb 8, 9, 9.1
- ✓ Open API
- ✓ Support Team

1. Search "Tex"

2. Our Central Server looks up and locates "Texas" and sends back information on how to connect with Texas' information servers

accesso

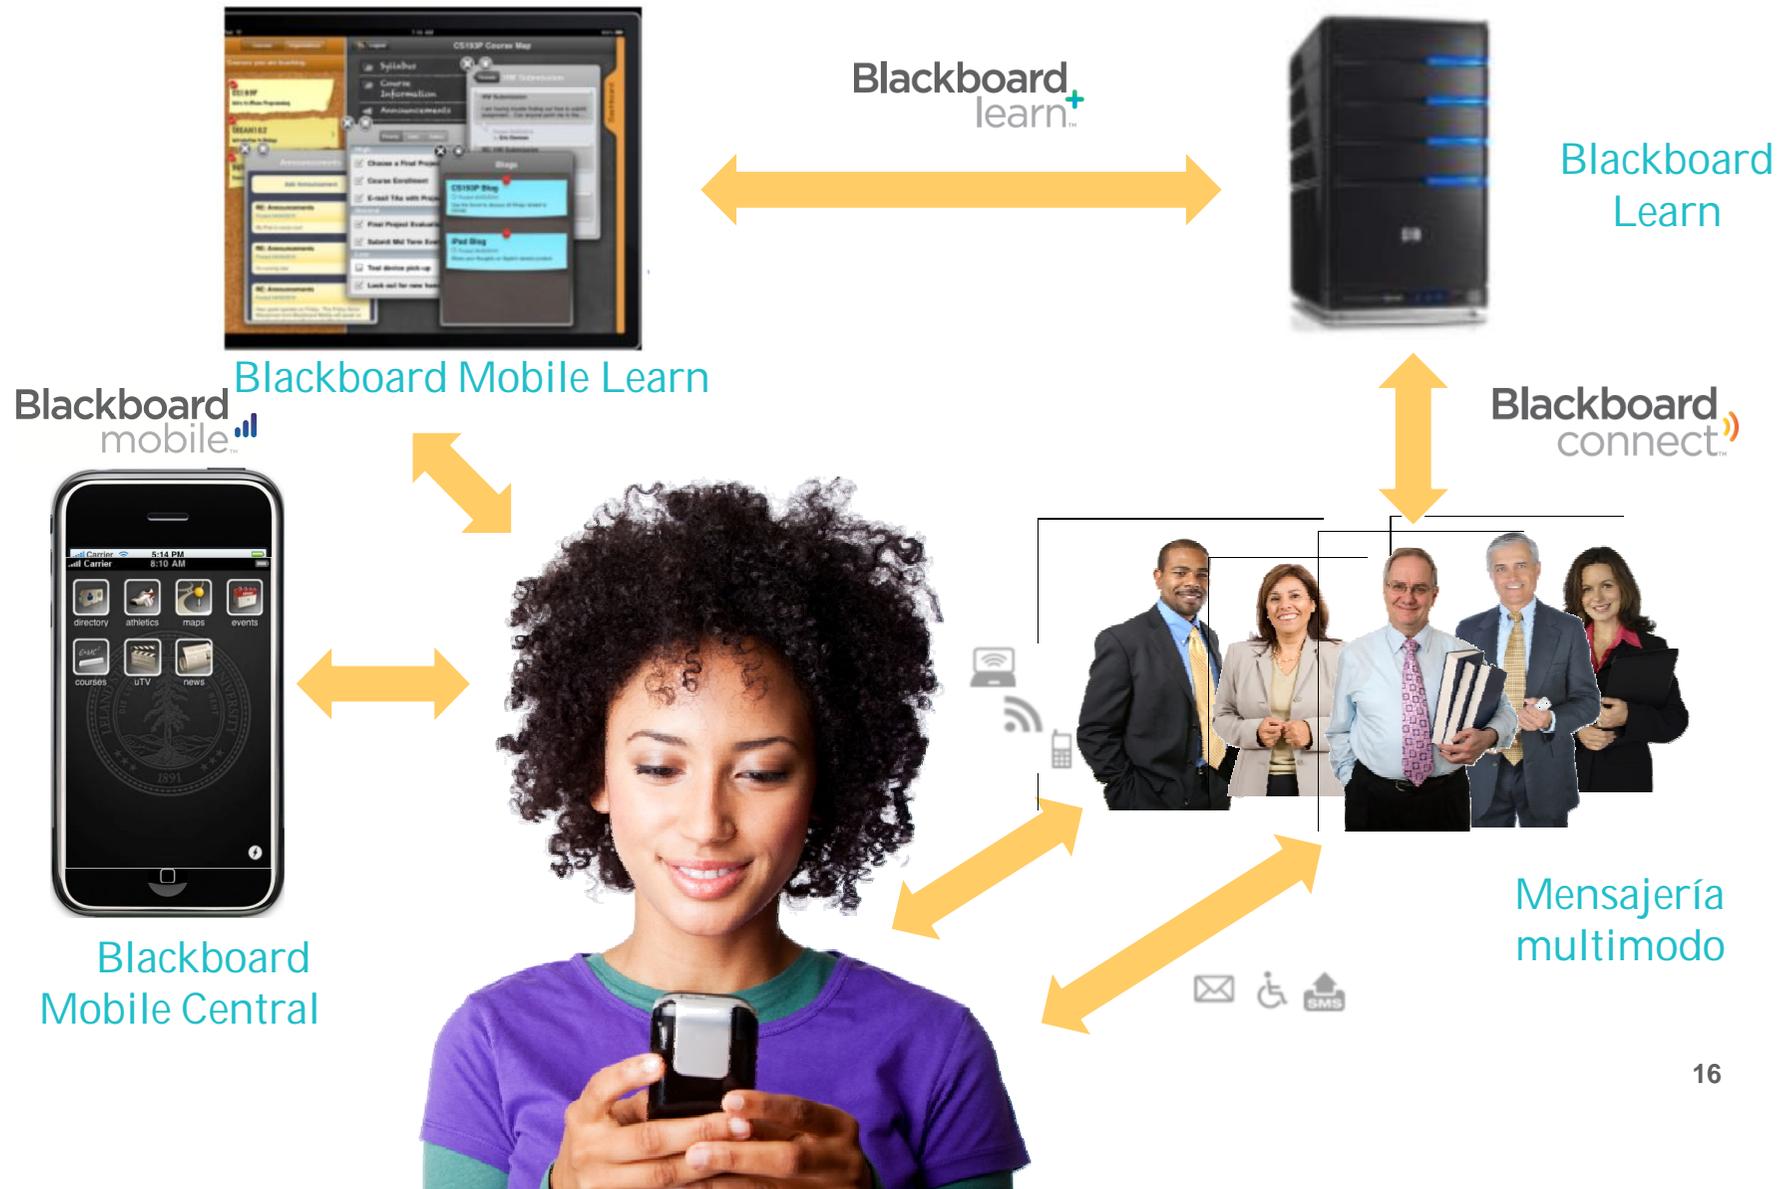

4. The user then chooses the desired institution. Once the device connects with the institution's servers, Blackboard is out of the communication. This connection is over SSL and fully protected.

3. Results of search:

- Texas Tech
- Texas A&M
