Student involvement in campus network deployment and maintenance

UNIVERSIDAD DE MÁLAGA

The University of Málaga dormitory had no **WiFi**!

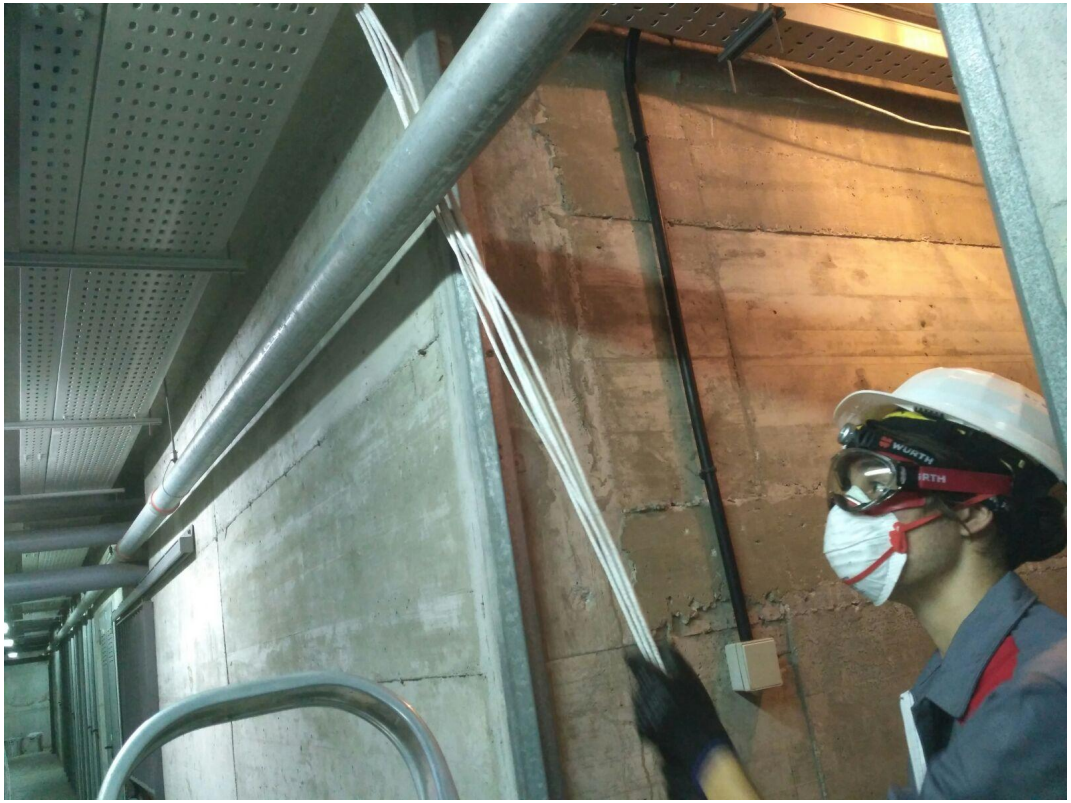
How can this problem be solved?
Who will solve such problem?

Let students get involved!

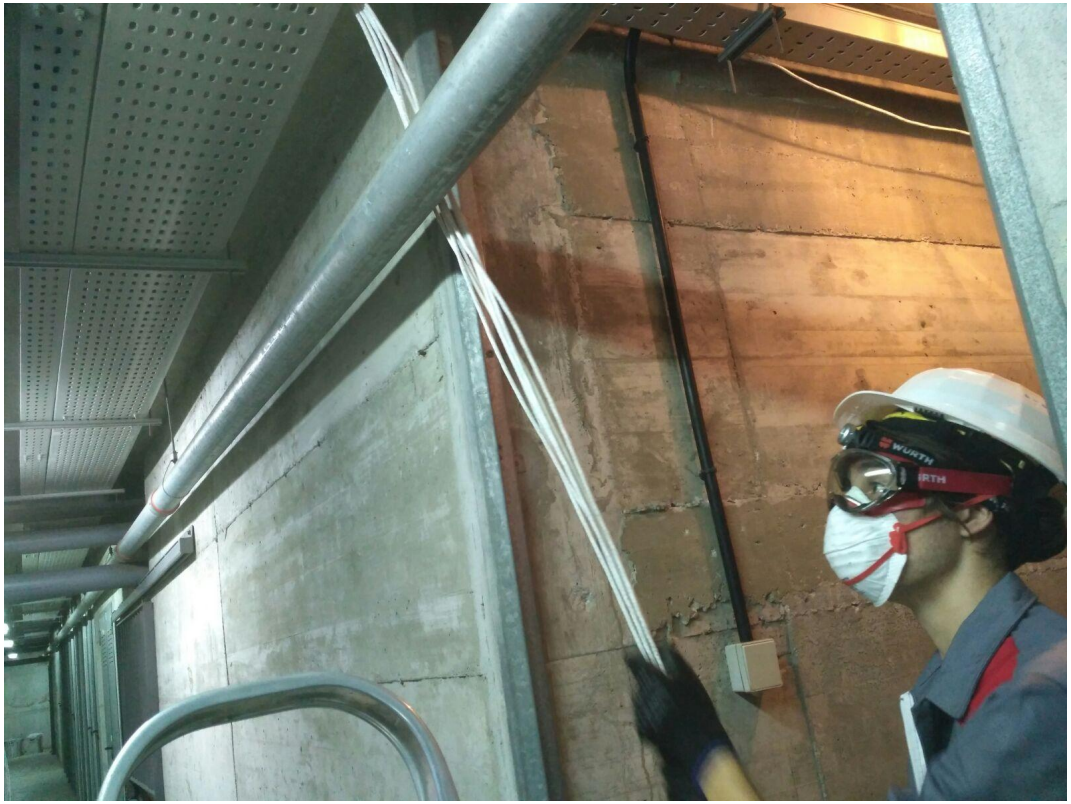
… And the university finally let students deploy their new network...

After a hard day of work

Some more photos...



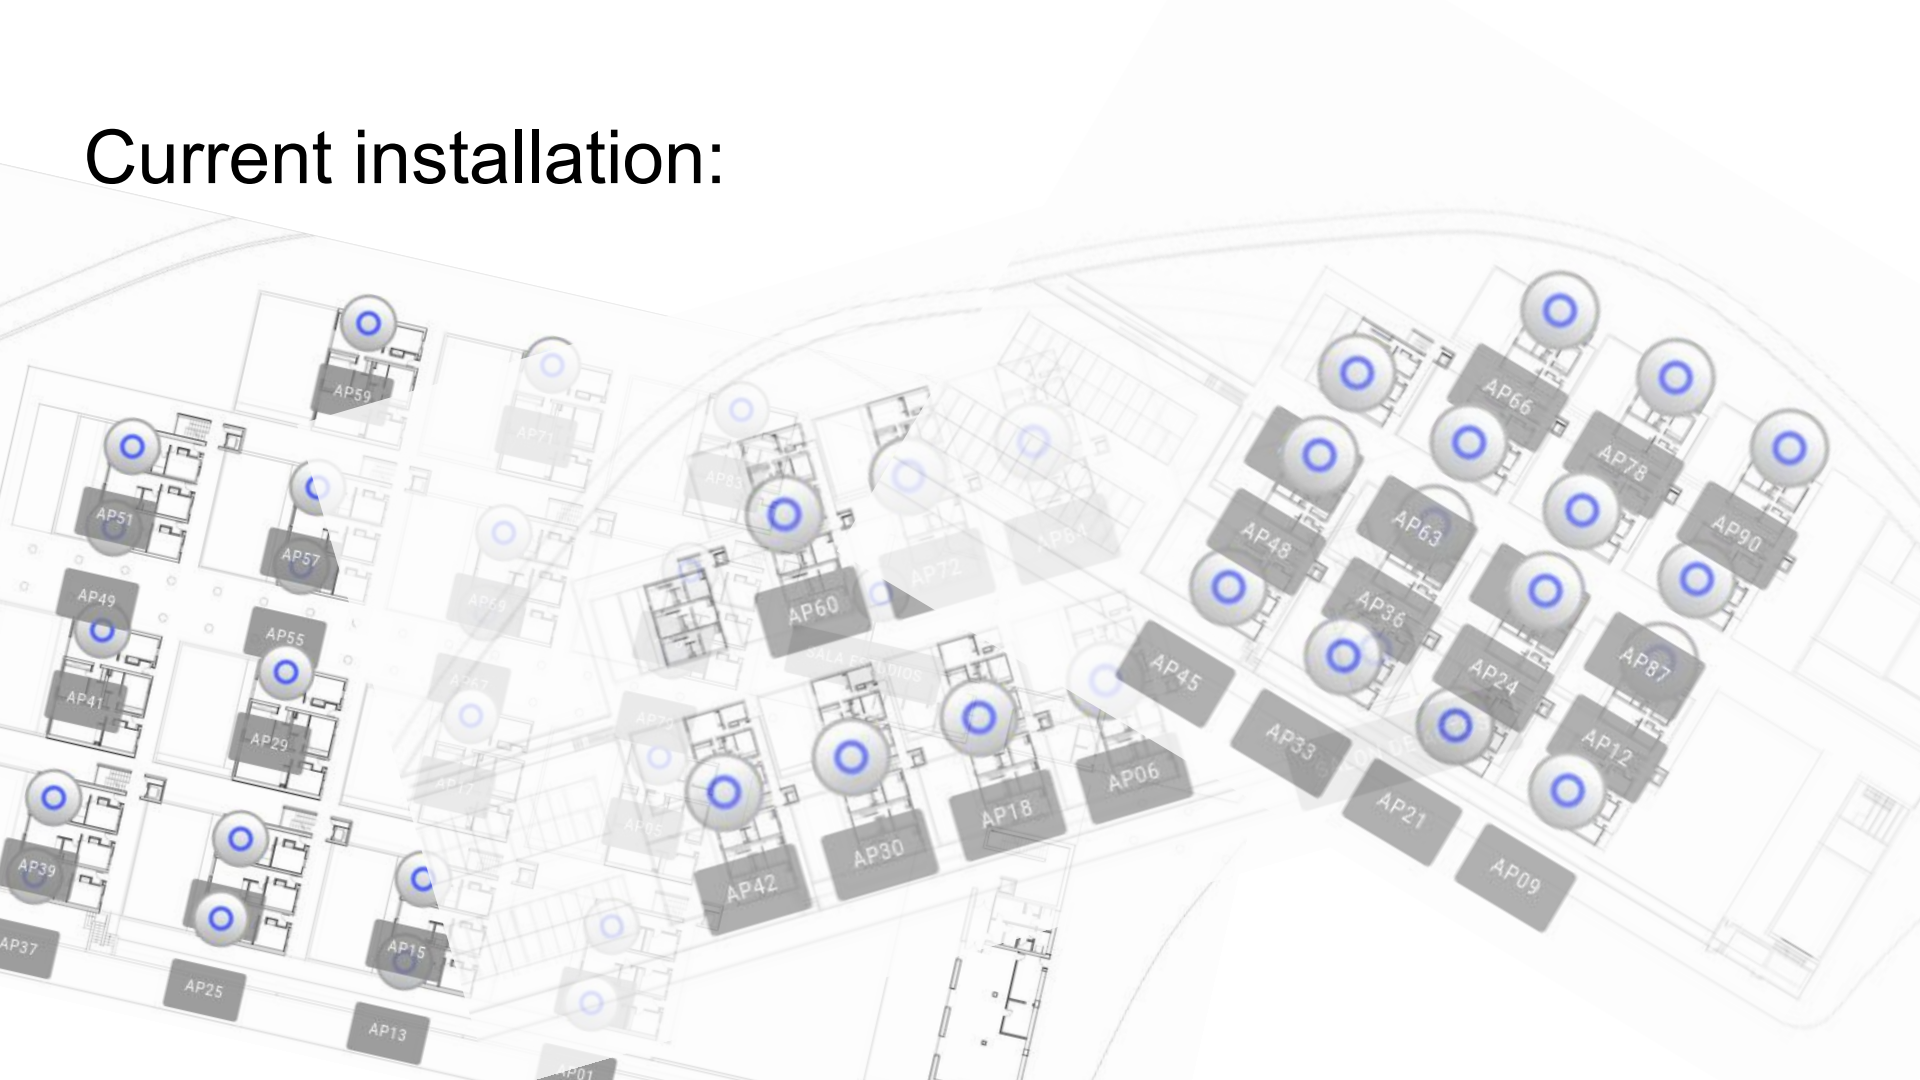
WURTH



WURTH

Now everybody is happy
47 powerful Access Points are now providing high speed WiFi

Current installation:



VoIP goes next

Actual model being deployed.

100 being deployed!

Same strategy: student involvement

Universities: let your students, even if they are not into IT, live one of the best and richest experiences of their life at the same time they learn networking!!
